A General description of the foregoing Township.
It is one of good Land About 1/quarter of it. is 1st. rate, one 1/. rich. 2nd rate. & the other 1/4. 3d. rate.
It is heavily Timbered. The face of the Country is rolling Soil deep Black loam, slightly sandy, bedded upon gravel & sand. It is well watered with Springs, The Drains, Springs & Brooks. are not it is presumed lasting, as they take their rise from the wet Prairies, Marshes & Alder Swamps, which, though small, are found on the dividing ridges of this Township.
The small Lake in Sec. 32. in most beautifully situated, and surrounded by land of the 1st. Quality. The Outlet is not sufficiently large for purposes of Machinery. The only Mill Stream is the Creek. in the N. E. & N. part. The Trail Marked on the Mofs, it. is believed, lead. from the Reserves on Ell River to a large Reserve on Tippecanoe River, and from thence to the Indian Mill in Lake Manatau— The Windfall in this Township has been made. at least 30. years. Judging from the size of the Young Timber. & the remains of a few Oak trees, Large Granite Rocks & Sand Stones are frequently met with in this Township. A. N. Morris. D. S.
